**FEDERAL UNIVERSAL SERVICE SUPPORT MECHANISMS
FUND SIZE PROJECTIONS FOR
THIRD QUARTER 2014**

INTRODUCTION

The Universal Service Administrative Company (USAC) hereby submits the federal Universal Service Support Mechanisms fund size and administrative cost projections for the third quarter of calendar year 2014 (3Q2014), in accordance with Section 54.709 of the Federal Communications Commission's (FCC or Commission) rules.¹

USAC is the not-for-profit corporation responsible for administering the federal Universal Service Fund (USF) and the Universal Service Support Mechanisms (also referred to as "Support Mechanisms" or "Programs" below): High Cost, Low Income, Rural Health Care, and Schools and Libraries.² USAC also performs the billing, collection, and disbursement functions for the Support Mechanisms.

Upon approval of the quarterly funding requirements for the Support Mechanisms and the projected administrative expenses, and the submission of the contribution base amount, the Commission will establish a quarterly contribution factor. USAC will bill USF contributors on a monthly basis for their individual obligations based on the approved contribution factor, collect amounts owed from contributors, and distribute funds to eligible recipients based on the schedules filed herein.³

¹ 47 C.F.R. § 54.709(a)(3).

² 47 C.F.R. § 54.701.

³ See 47 C.F.R. §§ 54.709(a)(4), 54.201, 54.203, 54.515, 54.517, 54.301-54.307, 54.407, 54.413, 54.515 and 54.611.

***ADMINISTRATIVE EXPENSES AND INTEREST INCOME
PROJECTION***

ADMINISTRATIVE EXPENSES

Section 54.709(a)(3) of the Commission's rules requires USAC to submit its projected quarterly budget at least 60 days prior to the start of the quarter.⁴ USAC includes any costs that can be directly attributed to the High Cost, Low Income, Rural Health Care, and Schools and Libraries Support Mechanisms in the projected administrative expenses and capital expenditures of each mechanism. USAC's remaining joint and common costs including costs associated with the billing, collection, and disbursement of funds are included in the projected administrative expenses and capital expenditures of the respective support mechanisms based on USAC's methodology for allocating costs submitted to the Commission.⁵

USAC projects a consolidated budget of \$34.50 million for 3Q2014. Direct costs for all support mechanisms total \$21.51 million⁶ and are listed for each mechanism in the chart provided below. Joint and common costs (including billing, collection, and disbursement activities) are projected at \$11.24 million and capital expenditures are projected at \$1.75

⁴ 47 C.F.R. § 54.709(a)(3).

⁵ On January 1, 2006, USAC implemented a revised methodology for allocating joint and common costs that was filed with the Commission on October 3, 2005. *See* Letter from D. Scott Barash to Marlene H. Dortch regarding Revisions to the Method for Allocating Costs Among the Four Universal Service Support Mechanisms, CC Docket Nos. 97-21 and 96-45 (Oct. 3, 2005).

⁶ This amount includes \$0.1 million for High Cost data collection performed by the National Exchange Carrier Association (NECA)—an independent entity not affiliated with USAC. *See* 47 C.F.R. §§ 36.611-13 and 69.603. Although USAC is required to pay for the data collection, it does not have the ability to directly oversee the effort and cannot verify, monitor, or otherwise evaluate the cost of performing the data collection function. Consistent with the fiduciary obligations of its members to safeguard USAC assets and the USF, USAC's Board of Directors has requested clarification from the Commission concerning this matter. *See* letter from D. Scott Barash, USAC, to Irene Flannery, FCC (Dec. 10, 1999), Comments of the Universal Service Administrative Company to the *Further Notice of Proposed Rulemaking* in CC Docket No. 96-45, FCC 01-8 (Feb. 26, 2001). *See also*, Comments of the Universal Service Administrative Company to the *Notice of Proposed Rulemaking and Further Notice of Proposed Rulemaking* in CC Docket No. 05-195, FCC 05-124 (June 14, 2005); and *Reply Comments of the Universal Service Administrative Company* (Dec. 19, 2005).

Appendix M01 provides USAC’s administrative expense and capital expenditure budget for 3Q2014. Appendix M02 provides the fund size projections for 3Q2014.

INTEREST INCOME PROJECTION

For 3Q2014, USAC projects interest income of approximately \$1.31 million for the High Cost Support Mechanism, \$0.09 million for the Low Income Support Mechanism, \$0.30 million for the Rural Health Care Support Mechanism and \$4.28 million for the Schools and Libraries Support Mechanism. USAC projects total interest income of \$5.98 million. As in previous quarters, projected interest income is being included as an offset to administrative expenses for each of the support mechanisms and reduces the amount that USAC will be required to collect from carriers for those support mechanisms that are funded at caps established by the Commission.

FINANCIAL STATEMENTS

For the three months ending March 31, 2014, on a cash basis, USAC disbursed to beneficiaries \$1,922.00 million in universal service support as follows: \$968.62 million in High Cost support, \$443.43 million in Low Income support, \$469.20 million in Schools and Libraries support, and \$40.75 million in Rural Health Care support. The total cash balance

available as of March 31, 2014 to the universal service support mechanisms was \$7,196.72 million. On an accrual basis, USAC had a fund balance of \$7,418.35 million at March 31, 2014.

Appendices M03 and M04 provide 2014 year-to-date statements of fund activity on a cash and accrual basis.

EFFORTS TO PREVENT AND REDUCE IMPROPER PAYMENTS

USAC has established a foundation of processes, systems, procedures, and outreach activities to prevent or reduce “improper” payments as defined by the Improper Payments Information Act of 2002 (P.L. 107-300). USAC is also evaluating additional measures that may help to identify or reduce improper payments. USAC has initiated efforts consistent with its February 28, 2008 letter to the Commission identifying additional steps that USAC proposed to take to prevent or reduce potential improper payments and the additional resources needed to implement such measures.⁷ Commission staff has directed USAC to report on a quarterly basis its progress in implementing proposed actions to prevent or reduce improper payments and anticipated administrative costs of such actions.⁸

The steps initiated by USAC include additional oversight and managerial controls, strengthened audit and investigative techniques, improved information technology tools, and more effective use of outreach resources. In 3Q2014, USAC will continue efforts identified and initiated during the previous years. These efforts include, but are not limited to:

1. *Assessing and strengthening USAC’s internal controls.*

The USAC Internal Controls Team (IC Team) continues to develop and update

⁷ See Letter from D. Scott Barash, Acting Chief Executive Officer, USAC, to Anthony Dale, FCC Managing Director (Feb. 28, 2008), concerning suggested additional steps to reduce or prevent improper payments.

required internal controls documentation and perform testing of key controls to conform the USAC internal controls program to best practices consistent with OMB Circular A-123. In February 2014, the IC Team presented the results of the 2013 internal control testing to the Senior Management Council and completed the 2013 internal control assessment report. Business owners are working on remediation activities for the deficiencies identified. The IC Team will retest the deficiencies in the third and fourth quarters to ensure corrective action plans are operating effectively and efficiently. During the first and second quarters of 2014, the IC Team is performing a privacy assessment on USAC's systems to ensure personally identifiable information is inventoried and properly protected. During the third and fourth quarters, the IC Team will update the internal control narratives, risk assessments and test the key controls selected for this year. In addition to documentation and testing activities, the IC team continues to facilitate review and approval activities for all USAC policy and procedure documents and provide assistance with ad hoc process improvement projects.

2. Strengthening audit and investigative techniques.

(a) In February 2010, the FCC directed USAC to implement an assessment program to determine the rate of improper payments made to universal service support mechanism beneficiaries to support the FCC's reporting requirements under the Improper Payments Elimination and Recovery Act (IPERA),⁹ formerly known as the Improper Payments Information Act (IPIA),¹⁰ and to assess universal service support mechanism beneficiary and USF contributor compliance with FCC regulations.¹¹ USAC successfully

¹⁰ See 31 U.S.C. § 3122; Public Law 107-300, Stat. 2350, Nov. 26, 2002.

¹¹ Letter from Steven Van Roekel, FCC Managing Director, to Scott Barash, USAC Acting Chief Executive Officer, re: "Implementation of the Improper Payments Information Act of 2002 (IPIA) Assessment Program and Companion Audit Program," Feb. 12, 2010.

Universal Service Administrative Company 3Q2014 Fund Size Projections

implemented this assessment program, known as the Payment Quality Assurance (PQA) Program, in August 2010 (see paragraph b below).

The FCC also directed USAC to establish a comprehensive support mechanism beneficiary and USF contributor audit program, which is known as BCAP. Audits occurring under BCAP are performed using USAC IAD internal staff and external audit firm resources, upon approval from the FCC Office of Managing Director (OMD). The specific audits that are being conducted as part of BCAP were designated based on a set of randomly selected beneficiaries and contributors. In addition, non-random audits of beneficiaries and contributors are performed when requested by USAC management to review whether a beneficiary or USF filer is complying with FCC rules.

As previously reported, in mid-2012, IAD selected an audit sample of 119 audits (127 audits in total including eight audits in process at the start of the sample) based on existing staff levels, that concentrate on larger and more complex audits when compared to the audits completed in prior calendar years. In mid-2013, IAD and FCC OMD staff began discussions on the development of a new audit plan that would address fiscal years (FY) 2014 and 2015. IAD and FCC OMD staff agreed that all audits in progress at the start of FY 2014 would be performed within the existing 2012 – 2013 audit plan, and audits announced after October 1, 2013 would be included in the FY 2014 – 2015 audit plan. To effectively utilize IAD staff resources after the audit goal in the existing plan was met, 68 additional audits were performed. In total, 195 audits will be completed under the 2012 – 2013 audit plan.

Following the April 2014 quarterly USAC Board of Directors meeting, 188 audits are complete and 7 audits remain in progress. In addition to completing the audits from the random sample, the audit team is also conducting unplanned audits as requested by USAC

Universal Service Administrative Company 3Q2014 Fund Size Projections

management, which are included in the numbers below. The status of the BCAP audits as of 1st Quarter 2014 is as follows:

Program	Planned	Board Approved	% Complete	In Progress	Pending Board Approval
Contributor Revenue	47	37	79%	5	5
High Cost	25	25	100%	0	0
Low Income	53	44	83%	0	9
Schools & Libraries	43	39	91%	2	2
Rural Health Care	27	27	100%	0	0
Total	195	172	88%	7	16

(b) As previously reported, the PQA Program has completed three years of testing payments under this directive, and the most recent two years are noted below. Using a statistically drawn sample, each month support mechanism disbursements are selected and reviewed to verify that payments were made at the correct amount in accordance with FCC rules. The table below summarizes the error rates noted and the projected estimated improper payment amounts for each program for Calendar Year 2012 disbursements compared to Calendar Year 2011:

	2012		2011	
Support Mechanism	Improper Payment Rate	Estimated Improper Payment Amount (millions)	Improper Payment Rate	Estimated Improper Payment Amount (millions)
High Cost	0.26%	\$10.6	0.30%	\$12.6
Low Income	0.18%	\$3.9	0.09%	\$1.6
Schools and Libraries	2.21%	\$49.4	1.91%	\$43.4
Rural Health Care	0.24%	\$0.2	0.92%	\$0.7

The PQA Program collects information from program beneficiaries for the purpose of verifying the accuracy of program disbursements requested and received by the beneficiaries. The PQA team performs payment verification on randomly selected

beneficiaries over a calendar year. Testing of payments for Calendar Year 2013 is now underway with an estimated completion of 3rd Quarter 2014.

3. Improving information technology tools.

USAC prepared a request for proposals (RFP) for the software procurement and systems integration of the USAC and USF financial systems modernization (FSM) project. The goals of FSM are to provide a more robust, flexible infrastructure to support all aspects of USAC operations. USAC has submitted relevant procurement documents to the FCC for approval prior to initiating procurement activities, and continues to work with the FCC on this initiative. Concurrently, USAC has undertaken a systematic review of the capabilities of its current financial system in order to determine whether additional functionality can be added to improve financial operations in the interim.

4. Expanding and enhancing outreach and education.

In 1st Quarter 2014 (1Q2014), USAC provided individual outreach to 140 Schools and Libraries applicants and 274 contributors. USAC held one live training for Rural Health Care Program applicants. USAC conducted 18 webinars: one for contributors, one for High Cost Program beneficiaries, one for High Cost and Lifeline Program beneficiaries, eight for Lifeline Program beneficiaries, and seven for Rural Health Care Program applicants. USAC participated in three professional meetings involving beneficiary audiences for the Rural Health Care Programs. USAC posted 15 online learning tools, including videos for contributors, High Cost, Low Income, and Schools and Libraries Programs.

HIGH COST SUPPORT MECHANISM

FUNDS RESERVED PURSUANT TO THE *USF/ICC TRANSFORMATION ORDER* (FCC 11-161)

On November 18, 2011, the FCC released the *USF/ICC Transformation Order* (FCC 11-161).¹² In the Order, the FCC set an annual funding target for the High Cost Support Mechanism of no more than \$4.50 billion annually over the next six years. The Order directed USAC to forecast total High Cost Program demand at no less than \$1.125 billion per quarter beginning with 1Q2012.¹³ In the Order, the FCC waived section 54.709(b) of its rules and instructed USAC not to make any prior period adjustments related to High Cost Program support. The Order requires that if actual contributions exceed demand, excess contributions are to be credited to a new Connect America Fund (CAF) reserve account, to be used to fund future broadband deployment.¹⁴ If actual High Cost Program demand exceeds the quarterly target of \$1.125 billion, no additional funds will accumulate in the reserve account for that quarter.¹⁵ In addition, the *USF/ICC Transformation Order* states that the \$4.5 billion budget includes only disbursement of support and does not include administrative expenses or prior period adjustments for support for prior years.¹⁶

In the *USF/ICC Transformation Order*, the Commission instructed USAC to wind down the Corr Wireless reserve account and use \$300 million in the account to fund

CONNECT AMERICA FUND PHASE I – INCREMENTAL SUPPORT

Incremental Support is designed to provide an immediate boost to broadband deployment in areas that are unserved by any broadband provider.²² Incremental Support is available to price cap carriers at the holding company level. The Commission determined the amount available for each carrier, which it published in DA 12-639, released on April 25, 2012.²³ Carriers had 90 days to accept all, part, or reject the amount available. carrier accepts Incremental Support, it is required to deploy broadband to a number of service locations equal to the amount it accepts divided by \$775.²⁴

On May 22, 2013, the Commission announced that a second round of Connect America Fund Phase I – Incremental Support funding will be available to promote expansion of broadband to consumers that lack access. The Commission allocated \$300 million for the second round of Phase I support. If total demand exceeds \$300 million, the Commission will authorize up to an additional \$185 million in funding.²⁵

On March 14, 2014, the Wireline Competition Bureau issued Public Notice DA 14-353 authorizing \$16.7 million in additional Phase I second round incremental support in response to the modified elections of two carriers, AT&T and Windstream Communications. AT&T was authorized to receive \$5.3 million in incremental support in exchange for a commitment to deploy broadband-capable infrastructure to 6,772 locations. Additionally, Windstream was authorized to receive \$11.5 million in incremental support in exchange for a commitment to deploy to 13,273 locations.

Information concerning whether Connect America Fund Phase II support will be available in 2014 has not yet been determined.

CONNECT AMERICA FUND/INTERCARRIER COMPENSATION SUPPORT

In the *USF/ICC Transformation Order*, the FCC adopted a transitional recovery mechanism with an effective date of July 1, 2012 to facilitate incumbent carriers' gradual transition away from intercarrier compensation (ICC) revenues.²⁶ Eligible incumbent carriers may receive additional support through this recovery mechanism.

For 3Q2014, total Connect America Fund/Intercarrier Compensation Support is

Appendix HC12 provides projected Connect America Fund/Intercarrier Compensation Support payments by state by study area for 3Q2014.

RATE-OF-RETURN CARRIERS

Rate-of-return carriers not affiliated with price cap carriers may continue to receive legacy High Cost Program support and may receive Connect America Fund support to offset lost inter-carrier compensation (ICC) revenues.²⁷

High Cost Loop Support (including Safety Net Additive and Safety Valve Support)

High Cost Loop (HCL) Support is calculated based on the results of the annual collection of 2012 incumbent local exchange carrier (LEC) loop cost and expense adjustment data that was submitted to the FCC and USAC on October 1, 2013.²⁸ Growth in total HCL Support for rural carriers is limited under Section 36.603(a) of the Commission's rules to the current level of funding increased yearly by the annual growth in supported rural loops.²⁹ The *Rural Task Force (RTF) Order*³⁰ increased HCL support for rural carriers effective July 1, 2001.

Rural HCL Support for calendar year 2014 will be less than the level of payments for 2013 because of a rural growth factor of negative 2.4831 percent. Rural HCL Support for calendar year 2014, therefore, is capped at \$756.51 million. This capped amount reflects reductions pursuant to the *USF/ICC Transformation Order*, which was adjusted by NECA in

the first quarter of 2012 to exclude price cap local exchange carriers and their rate-of-return affiliated study areas.

The *RTF Order* provided Safety Net Additive (SNA) Support above the HCL cap for carriers that make significant investment in rural infrastructure in years in which HCL is capped.³¹ To receive support, a rural carrier must show that growth in telecommunications plant in service (TPIS) per loop is at least 14 percent greater than the study area's TPIS per loop in the prior year. Pursuant to the *USF/ICC Transformation Order*, SNA will be phased down over a two year period, and no SNA support will be provided for carriers whose costs are incurred after 2009.³² For 3Q2014, projected SNA support is \$4.07 million.

For 3Q2014, projected HCL Support is \$190.30 million, which includes \$4.07 million for SNA support and \$1.24 million for Safety Valve Support (SVS). Total annual 2014 HCL Support is projected to be \$761.20 million.

Appendix HC05 provides projected uncapped monthly HCL Support payments by state by study area for 3Q2014. Appendix HC06 provides projected monthly SNA Support payments by state by study area for 3Q2014. Appendix HC07 displays projected SVS payments by state by study area for 3Q2014.

Interstate Common Line Support

Interstate Common Line Support (ICLS) is designed to permit each rate-of-return carrier to recover its common line revenue requirement while ensuring that its subscriber line charges (SLCs) remain affordable for its customers.³³

Universal Service Administrative Company 3Q2014 Fund Size Projections

For 3Q2014, ICLS is projected to be \$211.18 million and total annual 2014 ICLS is estimated to be \$890.35 million.

Appendices HC09, HC10, and HC11 provide USAC's 3Q2014 projections of ICLS by state by study area, per line and by state, respectively. In addition, HC14 and HC15, provide ICLS by state by study area and per line for 2012 true-up, respectively.

PRICE CAP CARRIERS

In the *USF/ICC Transformation Order*, the FCC directed USAC to freeze all support for price cap carriers and their rate-of-return affiliates for HCL, HCM, SVS, LSS, IAS, and ICLS, on a study area basis to the amount of support each carrier received in 2011.³⁴

For 3Q2014, total frozen high cost support for price cap carriers is estimated to be \$256.95 million and total annual 2014 frozen high cost support is estimated to be \$1,027.80 million. Appendix HC08 provides frozen high cost support for price cap carriers by state by study area for 3Q2014.

COMPETITIVE ELIGIBLE TELECOMMUNICATIONS CARRIERS

The *USF/ICC Transformation Order* transitioned existing CETC support to the Connect America Fund over a five-year period beginning January 1, 2012.³⁵ For the transition, the FCC set each CETC's baseline support at its total 2011 support in a given study area, or an amount equal to 3,000 times the number of reported lines as of year-end 2011, whichever is lower.³⁶ That monthly baseline amount was provided from January 1, 2012 to June 30, 2012.³⁷ Beginning July 1, 2012, each CETC's support was reduced by 20 percent for each July to June time period.³⁸

Universal Service Administrative Company 3Q2014 Fund Size Projections

For 3Q2014, total frozen High Cost Program support demand for CETCs is \$133.63 million. In addition, for rural Alaska CETCs and Standing Rock, 3Q2014 High Cost Program support is estimated to be \$19.48 million. The combined High Cost Program support demand totals for CETCs, rural Alaska CETCs, and Standing Rock for 2014 is estimated to be \$153.11 million.

Appendix HC08 provides frozen high cost support for CETCs by state by study area for 3Q2014. Additionally, Appendix HC03 provides 3Q2014 projections for Rural Alaska and Standing Rock Support by study area. Appendix HC04 provides 3Q2014 per line projections for Rural Alaska and Standing Rock Support.

HIGH COST SUPPORT MECHANISM SUMMARY

The 3Q2014 High Cost Support Mechanism funding requirements are projected as follows: \$190.30 million for HCL Support, \$211.18 million for ICLS, \$256.95 million for frozen Price Cap Carrier Support, \$153.11 million for frozen CETC Support,³⁹ \$108.49 million for Connect America Fund/Intercarrier Compensation Support, and \$204.97 million for the Connect America Fund reserve account resulting in total High Cost Support Mechanism projected demand of \$1,125.00 million.

Financial results for 1Q2014 contributed to an over-funded condition for which this filing proposes to adjust the 3Q2014 funding requirements. The total adjustment to the 3Q2014 funding requirement based on actual results will decrease the funding requirement by \$5.35 million. The explanation for the adjustment is described in the following table:

³⁹ "CETC Support" includes frozen support, rural Alaska CETC support, and support to the Standing Rock Reservation CETC.

Appendix M02 provides information on the individual components of the funding requirement for the quarter.

LOW INCOME SUPPORT MECHANISM

LIFELINE SUPPORT

All ETCs must offer Lifeline support to qualified low-income consumers.⁴⁰ ETCs providing Lifeline support are entitled to receive funding for the waiver of charges and reduced rates provided to qualified low-income subscribers.⁴¹ In the *Lifeline Modernization Order*, all non-tribal Lifeline support is set to a flat rate of \$9.25 for all subscribers equally, regardless of whether they subscribe to wireline or wireless Lifeline service.⁴² The Order, however, does not make any changes to Tier 4 support available to low-income consumers

residing on tribal lands.⁴³ As established in the *Tribal Order*, Tier Four support makes available each month up to an additional \$25 per low-income subscriber to eligible residents of tribal lands.⁴⁴

For 3Q2014, USAC projects \$412.97 million will be required for Lifeline Support. Based on this projection, total annual 2014 Lifeline Support is estimated to be \$1,690.00 million.

LINK-UP SUPPORT

Effective with the April 2012 support claims, Link-Up support was eliminated for all ETCs on non-tribal lands. Link-Up support is available for ETCs that provide support on tribal lands, but is limited to those ETCs receiving High Cost Program support.⁴⁵ Eligible ETCs may claim a 100 percent reduction, up to \$100, of the customary charge for commencing telephone service for a single telecommunication connection at a subscriber's principal place of residence.⁴⁶

For 3Q2014, USAC projects that \$0.15 million will be required for Link-Up support. Based on this projection, total annual 2014 Link-Up support is estimated to be \$0.53 million.

TOLL LIMITATION SUPPORT

Toll Limitation Support (TLS) compensates ETCs for providing voluntary toll-limitation service based on the carrier's incremental cost of providing toll-limitation services. The Commission has defined these costs as the costs that carriers otherwise would not incur if they did not provide toll-limitation service to a given customer.⁴⁷ Toll limitation consists

of toll blocking, which permits consumers to elect not to allow the completion of outgoing toll calls, and toll control, which allows consumers to specify a certain amount of toll usage that may be incurred per month or per billing cycle.⁴⁸

The *Lifeline Modernization Order* phases out TLS over a period of time by capping the maximum amount that an ETC may claim. As of April 2012 through the remainder of 2012, TLS was capped at \$3.00 per month per TLS subscriber. TLS was reduced to \$2.00 in 2013, and eliminated and unavailable at the beginning of 2014.⁴⁹

BROADBAND PILOT

The *Lifeline Modernization Order* established a Broadband Pilot Program for low-income consumers to test the impact of broadband adoption with variations in the monthly discount for broadband services. The broadband discounts will be provided over an 18-month period with no more than \$13.8 million to be disbursed.⁵⁰ USAC projects that \$0.25 million will be required for the Broadband Pilot Program in 3Q2014.

LOW INCOME SUPPORT MECHANISM SUMMARY

The estimated 3Q2014 Low Income Support Mechanism funding requirements are projected as follows: \$412.97 million for Lifeline, \$0.15 million for Link-Up, \$0.25 million for Broadband Pilot, resulting in total of \$413.37 million.

Financial results of 1Q2014 contribute to an over-funded condition, for which this filing proposes to adjust the 3Q2014 funding requirement. The total adjustment to the 3Q2014 funding requirement based on actual results will decrease the funding needed by \$44.62 million. The explanation for the adjustment is described in the following table:

RURAL HEALTH CARE SUPPORT MECHANISM SUMMARY

The estimated 3Q2014 Rural Health Care Support Mechanism demand requirement is \$57.23 million which includes amounts for the Telecommunications program as well as the Healthcare Connect Fund (HCF). Projected 3Q2014 Telecommunications programs requirements are \$31.23 million. Pursuant to the HCF Order, the FCC was directed to work with USAC to project the amounts to be collected for the early period of the new program until historical data provides an adequate basis for projecting demand.⁵⁹ Pursuant to FCC instruction, USAC projects \$26 million for 3Q2014 demand associated with the HCF.

The FCC has also directed USAC to use uncommitted Pilot Program dollars for the demand associated with the HCF. As of March 31, 2014, USAC estimates that there will be \$51.43 million in uncommitted Pilot Program dollars available for commitment under the HCF in 3Q2014. Total estimated HCF funds available for commitment in 3Q2014 will be \$173.55 million.

The results of 1Q2014 contributed to an over-funded condition for which this filing proposes to adjust the 3Q2014 funding requirements. The total adjustment to the 3Q2014 funding requirement based on actual results will decrease the funding requirement by \$0.26 million.

⁵⁹ In the Matter of Rural Health Care Support Mechanism, WC Docket 02-60, Report and Order, 27 FCC Red 16678, FCC 12-150, ¶368 (2012).

The explanation for the adjustment is provided in the following table:

Reason for the Prior Period Adjustment	Adjustment in Millions
The 1Q2014 billings were lower than the projected revenues reported by USF contributors in their quarterly revenue projections.	\$0.28
Interest income was higher than estimated for 1Q2014.	(0.04)
Bad debt expense was lower than anticipated.	(0.50)
Total Prior Period Adjustment	\$(0.26)

The total fund requirement of \$57.23 million is adjusted as follows: decreased by the prior-period adjustment of \$0.26 million, increased for administrative costs of \$2.66 million, and decreased by the projected interest income of \$0.31 million, resulting in a total projected funding requirement for the Rural Health Care Support Mechanism for 3Q2014 of \$59.32 million.

SCHOOLS AND LIBRARIES SUPPORT MECHANISM

Following is a summary of Schools and Libraries Support Mechanism net commitments⁶⁰ and net authorized for payment⁶¹ by funding year as of March 31, 2014.

⁶⁰ Net Commitments are the amount of total funding commitments (including appeals, less funding commitment adjustments (COMADs) and other recaptures) reduced by the remaining dollar amount of commitments that had not been fully disbursed by their invoicing deadline.

⁶¹ Net authorized for payment is the amount of total approved invoices less any returned funds. Authorized payments may be greater than net commitments due to recoveries in the process of collection.

SCHOOLS AND LIBRARIES SUPPORT MECHANISM SUMMARY

In a series of actions from December 1999 through December 2002, the Commission used a net total of \$477.16 million of undisbursed Funding Year 1998 Schools and Libraries Support Mechanism funds to reduce USF collection requirements. Consistent with the Commission's direction in the *Schools and Libraries First Report and Order*, a total of \$852.12 million of undisbursed Funding Years 1999 and 2000 collections were used to stabilize USF contributions and offset collections for 3rd Quarter 2002 (3Q2002), 4th

Quarter 2002 (4Q2002), and 1st Quarter 2003 (1Q2003).⁶²

In the *Schools and Libraries Third Report and Order and Second Further Notice of Proposed Rulemaking*, the Commission amended its rules to allow unused funds from prior funding years to be carried forward on an annual basis in the second quarter of each calendar year for use in the next full funding year.⁶³ The Commission required USAC to file quarterly estimates of unused funds from prior funding years in submitting its projection of Schools and Libraries Support Mechanism demand for the upcoming quarter. The Commission modified the schedule to implement the process for Funding Year 2003 and directed USAC to carry forward \$420 million of unused prior year funds for use in Funding Year 2003.⁶⁴ In accordance with the *Schools and Libraries Third Report and Order*, the Commission announced that \$150 million in unused funds from Funding Year 2001 would be carried forward to increase disbursements to schools and libraries in Funding Year 2004.⁶⁵

On June 11, 2007, the Commission instructed USAC to carry forward \$650 million in unused funds to Funding Year 2007.⁶⁶ The funds were carried forward from Funding Years 2001, 2002, 2003, and 2004 in the amount of \$50 million, \$300 million, \$150 million, and \$150 million, respectively. On June 23, 2008, the Commission instructed USAC to carry forward \$600 million in unused funds to Funding Year 2008.⁶⁷ The funds were carried forward from Funding Years 2002, 2003, and 2004 in the amount of \$150 million, \$200 million, and \$250 million, respectively. On July 31, 2009, the Commission instructed USAC

the FCC authorized USAC to carry forward \$450 million in unused funds from prior years to increase Funding Year 2013 disbursements in excess of the \$2.38 billion annual cap. The funds were carried forward from Funding Years 2007, 2008, 2009 and 2010 in the amount of \$20 million, \$150 million, \$150 million⁷³ and \$130 million, respectively.

In the *Schools and Libraries Sixth Report and Order*, the Commission amended its rules to increase the cap on program funding by indexing the cap to inflation.⁷⁴ The Commission calculates this annual increase by using the percentage increase in the gross domestic product chain – type price index (GDP-CPI) from the previous year and rounds this to the nearest 0.1 percent. The Commission found that the GDP-CPI increased 0.9 percent between 2008 and 2009. Using this analysis, the Commission set the cap for Funding Year 2010 to \$2,270,250,000. On August 5, 2011, the Commission set the cap for Funding Year 2011 at \$2,290,682,250.⁷⁵ On November 18, 2011, the FCC ordered USAC to include the inflation adjustments to the E-rate cap in the Schools and Libraries Support Mechanism demand projection.⁷⁶ On May 18, 2012, the Commission set the cap for Funding Year 2012 to \$2,338,786,577.⁷⁷ On March 11, 2013, the FCC set the cap for Funding Year 2013 at \$2,380,314,485.⁷⁸ On March 28, 2014, the FCC set the cap for Funding Year 2014 at \$2,413,817,693.⁷⁹

In consultation with FCC staff, USAC estimates that a total of \$600 million is available to carry forward from funding years as follows: 2002: \$40 million; 2007: \$30

Funding Year 2012 True-Up

As of March 31, 2014, \$1,842.45 million of Funding Year 2012 support had been authorized for disbursement. USAC's projection of remaining Funding Year 2012 funds includes estimates of funds needed to pay additional disbursements on committed funding requests and disbursements on requests that have not yet received funding commitments, as well as a contingency reserve to pay pending appeals and to make disbursements on funding requests that may be granted extended invoice deadlines pursuant to Commission orders. Given these requirements and to preserve the contingency amount, USAC estimates that no Funding Year 2012 funds are available to carry-forward. The estimated remaining Funding Year 2012 balance is based on the following:

FUNDING YEAR 2012	Amounts in Millions
Amount Authorized and Actually Collected	\$2,250.00

3Q2014 Demand Estimate and Contribution Requirement

USAC changed the accounting methodology for the USF to generally accepted accounting principles for federal agencies on October 1, 2004 to comply with the Commission's Order of October 3, 2003.⁸⁰ Commission staff subsequently determined that Funding Commitment Decision Letters (FCDLs) for the Schools and Libraries Support

Mechanism are to be treated as “obligations” for federal budgetary accounting purposes and subject to the requirements of the Antideficiency Act (ADA).⁸¹ The ADA generally requires that sufficient unobligated resources be available before an obligation can be incurred.

Congress exempted the USF from the requirements of the ADA through December 31, 2015.⁸²

To reduce the USF cash reserve that has accumulated primarily because the structure of the program necessarily results in significant time lags between the commitments and actual disbursements while at the same time retaining the ability of the USF to satisfy all outstanding commitments based on historic disbursement patterns, the Commission applied a total of \$550 million of the undisbursed USF balance from prior years against Schools and Libraries Support Mechanism demand in 2004. The Commission applied \$200 million of the cash balance in both Second Quarter and Third Quarter 2004, and \$150 million in Fourth Quarter 2004.⁸³

Based on the level of applicant demand in Funding Year 2013, which exceeds the annual funding cap, USAC requests authority to collect an amount to provide \$562.50 million in funding for 3Q2014, which is one-quarter of the \$2.25 billion annual funding cap, increased by an inflation factor of \$40.95 million, an amount equal to one-quarter of the

⁸³ As stated in its January 31, 2004, Federal Universal Service Support Mechanisms Fund Size Projections for the Second Quarter 2005, and in its subsequent quarterly filings, USAC will continue to consult with the Commission as appropriate concerning the necessity and timing of any recovery of this \$550 million.

projected annual inflation adjustment of \$163.82 million.⁸⁴ Results for 1Q2014 contribute to an over-funded condition for which this filing proposes to adjust the 3Q2014 requirements. The total adjustment to the 3Q2014 fund requirements based on actual results will decrease the funding needed by \$3.12 million. The explanation for the adjustment is provided below:

Reason for the Prior Period Adjustment	Adjustment in Millions
1Q2014 billings were lower than projected	\$2.31
Interest earned was higher than projected	(0.59)
Bad debt expense was lower than anticipated	(4.84)
Total Prior Period Adjustment	(\$3.12)

The total fund requirement of \$562.50 million, which includes administrative expenses of \$18.41 million, increased by the inflation increment of \$40.95 million, decreased by the prior-period adjustment of \$3.12 million, and reduced by the projected interest income of \$4.28 million, results in a total projected collection requirement of \$596.05 million for the Schools and Libraries Support Mechanism for 3Q2014.

CONTRIBUTION BASE

USAC collects quarterly interstate and international revenue information from carriers on FCC Form 499-Q four times each year. USAC uses this information to determine aggregate projected revenue collections, which are filed with the Commission on March 2, June 1, September 1, and December 2 each year.⁸⁵ Based on these filings, the Commission establishes the contribution factor for the upcoming quarter.

The quarterly USF contribution factor established by the Commission is derived from projections of support mechanism demand calculated by USAC and projected

⁸⁴ 47 C.F.R. § 54.507(a).

⁸⁵ See 47 C.F.R. § 54.709(a)(3). The Form 499-Q includes a box for each of the quarterly filing submissions. Carriers check the appropriate box to indicate the quarter for which revenue information is being reported. See also, 47 C.F.R. §§54.706, .708, .711 and .713 for contributor reporting requirements.

collected revenue submitted by USF contributors on FCC Form 499-Q and aggregated by USAC. The total USF funding requirement is based on many inputs and is the result of the manner in which the support mechanisms operate pursuant to Commission rules. Inputs include actual support mechanism demand, which changes quarterly, adjustments resulting from events that occur in prior periods but are reported to USAC in the current period, and reconciliation of projections from prior periods to actual results reported by USF contributors and support mechanism beneficiaries (i.e., prior period adjustments). Other inputs include USAC administrative expenses and capital expenditures, and the impact of interest income earned on USF funds USAC invests in United States Treasury securities. The USF contribution base is different each quarter due to changes in carrier revenue projections, which among other things are subject to changing business cycles, and changes to requirements concerning the revenue to which the USF assessment applies (e.g., adding or subtracting certain types of services to the contribution base due to rule changes or other Commission activity). Because of the combined influence of these many factors, nearly all of which change each quarter based on the manner in which the Commission rules operate and the programs are administered, the quarterly contribution factor established by the Commission derived from these USAC-submitted inputs can fluctuate substantially from quarter to quarter. Thus, comparisons to preceding or prior year quarters should be made with caution and predicting trends based on such comparisons may not provide a basis for meaningful analysis.

USAC invoices and receives contributions from more than 3,000 telecommunications companies each month. Interstate telecommunications service providers are required to complete the 499-Q form, reporting July – September 2014 projected revenue information, and return it to USAC by May 1, 2014.

Universal Service Administrative Company 3Q2014 Fund Size Projections

USAC continues to assist the Commission in its USF collection enforcement efforts, including providing documentation on a quarterly basis to assist the Commission in issuing Notices of Apparent Liability (NALs) and forfeiture orders against delinquent contributors and companies failing to file required forms. Pursuant to a directive issued by the FCC on March 27, 2012, USAC transfers monies that are 120 days delinquent to the U.S. Treasury after USAC has provided the delinquent carrier with the notice required under FCC and Debt Collection Improvement Act (DCIA) requirements.

USAC implemented the Red Light Rule on November 1, 2004 for contributor debts to the USF.⁸⁶ If a contributor is delinquent to the USF, USAC performs administrative offsets to resolve the delinquency by netting any pending service provider disbursements where the Service Provider Identification Number (SPIN) shares the same Taxpayer Identification Number (TIN) as the delinquent contributor. If an entity is delinquent on a debt owed to the Commission or the Telecommunications Relay Service, North American Numbering Plan or Local Portability funds, USAC places administrative holds on any disbursements for SPINs that share the same TIN until the Commission provides information stating that the debt has been satisfied. USAC continues to work closely with the Commission and stakeholders affected by the Red Light Rule implementation.

AUTHORIZATION TO FILE WITH THE COMMISSION

At their January 28, 2014 meetings, USAC's High Cost, Low Income, Rural Health Care and Schools & Libraries Committees adopted resolutions authorizing USAC staff to file with the Commission the 3Q2014 projected support mechanism funding requirements described herein. At its April 29, 2014 meeting, the USAC Board of Directors adopted a
